### CLARK WINS TIMBER SUIT.

Montana Senator Victorious Over the Government.

Butte, Mont., Nov. 9.—The great timber suit, brought by the United States against Senator W. A. Clark, involving timber lands in the Bitter Creek valley, Western Montana, to the value of \$2,000,000, was settled during the day by Judge Knowles of the United States district court in favor of the defendant, W. A. Clark. Judge Knowles finds that the defendant was guilty of irregular purchase of the lands and innocent of the illegal registration of the same if such irregularities existed. In his decision Judge Knowles criticizes the testimony of Witness Griswold for the government, whose reputation, the decision says, is none the best and whom many other witnesses testified had approached them in behalf of the government. The case is the most famous timber land action ever tried in the West. The reading of the testimony consumed forty days.

### JUMPS FROM HIGH BRIDGE.

Traveling Salesman Commits Suicide in St. Paul.

St. Paul, Nov. 9.—Leaving a note sealed in a stamped and addressed envelope in his coat pocket William Nott, traveling salesman of the Phoenix Chair company, St. Anthony Park, during the afternoon jumped from a buggy in which he had driven to the high bridge, climbed quickly over the railing and leaped head foremost into the river.

Nott had made preparations for the fatal deed with the utmost deliberation, and so carefully did he guard his intentions that friends whom he left, ostensibly to take a buggy drive, were amazed when informed that he had committed suicide.

The motive of Nott's deed is a mystery. His friends unanimously declare that he was of a jovial disposition and a good companion.

## COLOMBIA PROTESTS

OBJECTS TO ACTION OF THE UNITED STATES IN REGARD TO PANAMA EVENTS.

### AMERICAN REPLY UNKNOWN

STATE DEPARTMENT HAS THE MATTER UNDER SERIOUS CONSIDERATION.

Washington, Nov. 9.—It has been learned in official circles that the United States of Colombia has lodged a protest with the state department against the action of the United States in connection with the events which have occurred on the Isthmus of Panama. The terms of the protest could not be ascertained, but it is known that a strong objection is made to the attitude of the United States in general and against interpretations made by this government of the treaty of 1846 between the United States of America and the United States of Colombia. The state department has the protest under serious consideration, but the nature of its reply, if any, or the time it will be made is not known. Other than admitting that such a document had been filed in the state department the officials there will say nothing about the matter.

Word has reached the navy department of the arrival of the United States cruiser Boston at Panama.

### WALKER GOES TO PANAMA.

President of Canal Commission Sails on the Mayflower.

Washington, Nov. 9.—The Mayflower has left the navy yard here for Colon. Aboard her is Consul General H. A. Guder, the United States consul general at Panama, who goes to that place to assume full charge of the American consular affairs. The Mayflower is expected to reach her destination in about eight days. On his arrival at Panama Mr. Guder will do business with the new government at Panama. He has full instructions from the secretary of state governing his dealings with the new government.

Rear Admiral Joseph B. Coghlan, who is to assume command of the naval forces on the Atlantic side of the Isthmus of Panama, was also on the Mayflower.

Admiral John G. Walker, president of the Isthmian canal commission, also was a passenger on the Mayflower. His departure was considerable of a surprise, no announcement to this effect having been made heretofore and the first news of his going to Panama being given out by Secretary Moody when he came from the White House at midnight. Admiral Walker, it is stated, goes to Panama for the purpose of observing conditions on the ground and reporting to the president on the situation and on any changes that have occurred since the Isthmian canal commission made its last report.

### CONSTITUTIONAL CONVENTION.

Panama Provisional Government Ready to Call One.

Washington, Nov. 9.—The provisional government in Panama is ready to call a constitutional convention as a means of adopting a permanent form of government at the earliest possible date.

A treaty will have to be made with the new republic to secure the concession for the canal and the state department expects more important concessions than was possible in dealings either with Colombia or Nicaragua. There will not be a clause in the Panama constitution prohibiting the alienation of territory and the administration expects to secure an absolute title to the territory necessary to the canal. This was one of the embarrassing points in negotiations with both Colombia and Nicaragua.

Colombia was willing to lease the territory for the Panama canal and Nicaragua and Costa Rica were willing to lease the territory for the Nicaraguan canal. They claimed that their constitutions prohibited the alienation of territory.

### TO SAVE NATIONAL HONOR.

Colombia Sends a Peace Commissioner to Panama.

Panama, Nov. 9.—A cablegram has been received here from General Reyes containing the information that he has been appointed by the government of Colombia as peace commissioner with the duty of making arrangements with the government of the republic of Panama to the end that the national honor may be saved. Everything in Panama is quiet, but the circulation of the news of the appointment of General Reyes resulted in enthusiastic celebrations, not only because the general has many friends here, but for the reason that his mission is looked upon as assuring the independence of the Isthmian territory.

### WILD RUMORS AT COLON.

Said Americans in Bogota Are Being Massacred.

Colon, Nov. 9.—No news has been

received from Bocas del Toro. The United States cruiser Atlanta has sailed for there. The steam launch which was sent to Bocas del Toro Thursday night to capture that place in the interest of the new republic has not returned. It is reported that the United States gunboat Nashville has gone to Cartagena.

Wild rumors are in circulation here that the American and other foreign residents of Bogota are being massacred. The rumors are not confirmed and are looked upon as altogether improbable.

### STRIKE OF COAL MINERS.

Practically All Out in the First Colorado District.

Trinidad, Colo., Nov. 9.—It is now evident that the strike of the coal miners in the First district of the Colorado Fuel and Iron company is no small affair. In fact, it is a strike out of all proportions to that even hoped for by the officers of the United Mine Workers of America and ten times what was looked for by the coal operators. At the meeting of superintendents and pit bosses held in the Colorado Fuel and Iron offices at Trinidad last Thursday night reports were made that in no camp would enough men go out to cause a shutdown. It is doubtful if enough men can be found in the whole district to work the mines at Primero. There is not one mine in this section that can start up with a half crew of miners. All day the chiefs and miners have been swarming into Trinidad, nearly all of them having their pay checks, running from \$187 down. The checks were for such amounts that business men could not cash them and hence lost thousands of dollars in trade.

The Colorado and Southern, Santa Fe and Denver and Rio Grande railroad have reduced their crews nearly one-half, it is said, while the Colorado and Wyoming is practically out of business as a coal road.

### STUDENTS ROUGHLY HANDLED.

One Found Dead and Another Unconscious.

Baltimore, Nov. 9.—The police are investigating the cause of the death of Martin Loew, twenty-seven years old, a student in the dental department of the University of Maryland, whose lifeless body was found during the day in his room at his boarding house. His roommate, Ephraim Stone, twenty-three years of age, was lying unconscious beside the bed. Loew is from Silesia, Germany, and Stone hails from Cape Town, South Africa. It is said that the men were initiated last week into the Phi Psi Chi, a college fraternity of which many of the students at the university are members. From bruises on the bodies of the two men it would seem that they had been roughly handled, whether from the initiation or otherwise is not known. An inquest and post mortem examination will be held by the authorities.

### BANK OFFICIALS ARRESTED.

Charged With Fraudulent Acceptance of Deposits.

Cripple Creek, Colo., Nov. 9.—James F. Hadley, president, Bruno Hobbs, vice president, and A. G. Joas, assistant cashier of the Bimetallic bank, which was closed last Thursday, have been arrested on complaint sworn to by James E. Mosler of the Harder-Mosier Mercantile company of Cripple Creek. The information filed with Assistant Attorney Cole alleges that the above named defendants accepted \$400 from the Harder-Mosier Mercantile company for deposit in the Bimetallic bank when they knew the institution to be in an insolvent condition. The prisoners were released on bonds of \$5,000 each.

### FEARS THE FEUDISTS.

State's Attorney Will Remain Away From Jackson, Ky.

Lexington, Ky., Nov. 9.—A. Floyd Byrd, commonwealth attorney of Breathitt county, who gained a reputation in the prosecution of Curtis Jett and Thomas White for the Marcus murder, has confirmed the rumor that he has decided to remain away from Breathitt during the term of court which has begun at Jackson, Ky. His action is taken upon the insistent solicitations of friends and relatives, who declare that judging from the past history of the county, his life would be in constant peril there.

### SHUTDOWN IS COMPLETE.

General Strike of Miners in Northern Colorado.

Denver, Nov. 9.—A general strike in the Northern Colorado coal field has been declared at Louisville. In all about 1,275 men are idle. This makes the shutdown practically complete and only a few of the small independent mines will run. The action of the miners of the northern field was a surprise to the operators. After the conferences held in this city in which practically every demand except the eight-hour day was granted to the men they determined to strike.

### SECRETARY ROOT'S OPINION.

United States Troops May Go to the Isthmus.

New York, Nov. 9.—"Yes, there is a possibility that troops may have to be sent to the Isthmus," said Secretary of War Root during the day. "There always is a possibility; that is what the army is for, but I hardly think it will be necessary in this case." Beyond this he declined to be quoted, pleading lack of information about the situation.

## GERMAN RULER ILL

EMPEROR WILLIAM UNDERGOES AN OPERATION FOR AFFECTION OF THE THROAT.

### ROYAL PATIENT DOING WELL

HIS MAJESTY ENJOINED FROM SPEAKING UNTIL THE SURGICAL WOUND HEALS.

Berlin, Nov. 9.—Emperor William during the day underwent an operation for the removal of a polypus from his larynx. The operation was performed by Professor Moritz Schmidt and was entirely successful. The only inconvenience suffered by his majesty is that he has been enjoined not to speak until the wound caused by the operation has been healed. The bulletin announcing the result of the operation caused much astonishment, even among court officials, who had no suspicion that his majesty was suffering from any affection of the throat. The emperor himself appears not to have known of the growth in his larynx until a few days ago and to have suffered no discomfort from it.

The following is an authorized account of the operation as given to the North German Gazette:

"Potsdam, Nov. 9.—His majesty underwent an operation for the removal of a polypus from his larynx. The operation was performed by Professor Moritz Schmidt, and was most successful. His majesty is not only enjoined to speak until the wound caused by the operation is healed."

The surgeons expect that the emperor will be out of doors in a week. He has arranged a hunting trip for Friday, Nov. 27.

### CANNON CHOSEN SPEAKER.

Republican Congressmen Hold Caucus in Washington.

Washington, Nov. 9.—The caucus of the house Republicans developed into a love feast before it had been in session many minutes. There was only one discordant note and that was expected. Representative Hepburn made an assault upon the rules, but, as was generally predicted, the rules under which the house has been conducted since Thomas B. Reed's famous ruling were adopted without modification.

Representative Babcock was groomed for chairman of the caucus, but the Wisconsin member declined to enter the race, stating that the honor should be given to an older member. Mr. Babcock then nominated Mr. Hepburn, of Iowa, who received the unanimous vote of his colleagues.

Joseph G. Cannon was nominated for speaker, and all of the old officers of the house were re-elected, as follows: Alexander McDowell, clerk; Henry Casson, sergeant-at-arms; Frank B. Lyon, doorkeeper; J. C. McElroy, postmaster, and Rev. Henry D. Couden, chaplain.

Mr. Cannon awaited the result in the offices of the committee on appropriations. He was informed of his nomination for speaker by a committee. Mr. Cannon replied in a happy vein to the formal announcement of the committee and in a speech to the caucus declared that it was his purpose to administer the affairs of the house impartially and with fairness to all.

### TO SUCCEED CORTELYOU.

Said John Mitchell Will Become a Cabinet Member.

Pittsburg, Nov. 9.—The Dispatch publishes a story to the effect that John Mitchell will not be a candidate for re-election as president of the United Mine Workers at the January convention. This statement was made by a close personal friend of Mr. Mitchell during a short layover here of the miners' president and other officials of the organization who are on their way to Boston to attend the convention of the American Federation of Labor.

The announcement from this apparent authentic source is raised above mere rumor.

The same gentleman said Mr. Mitchell, assuming that President Roosevelt would be re-elected, decided to lay aside the miners' office to become a member of the president's cabinet, succeeding George B. Cortelyou as secretary of the department of commerce and labor. Secretary Cortelyou, it is said, has decided not again to be the head of the department and may go back to the position of private secretary to the president.

### FOUR CHILDREN KILLED.

Terrific Explosion of Nitro Glycerine at Lancaster, O.

Lancaster, O., Nov. 9.—Four children were instantly killed by an explosion of nitro glycerine at Bucks Run, in Hocking county, during the day. The dead are: Oscar Bohn and Charles Bohn, aged fourteen and twelve, and their eight-year-old sister and the nine-year-old son of Robert Conrad.

The children were playing with a can which had contained nitroglycerine and it is supposed struck it with a stone. The home of the Bohns was partially wrecked. The bodies of the children were terribly mutilated.

## AFFECTS RETAIL TRADE.

Unseasonable Weather Has a Tendency to Quiet Industry.

New York, Nov. 7.—Brainerd's weekly review of trade says trade and industry is quieter on the whole. Unseasonable weather affects retail trade at many centers and conservatism in providing for future requirements restricts jobbing trade. Relatively most activity is found in the South, where the growth of the cotton movement at the high prices ruling stimulates business at many centers. In industrial lines, reports of curtailed production are evidence of new demand not pressing as sharply heretofore. Food products are easing off, and finished iron and steel are leading the downward movement of manufactured goods, but signs of reawakened foreign and domestic demand lead to the hope that the automatic check to demand long exercised will be removed.

Iron and steel bars are active and Western jobbers make \$3 per ton by filling orders from store rather than from mill. Wire products are likewise active. Reports of cuts in rail prices are not substantiated, but some export business has been done in rails for Asia. Lumber is steadier as a whole, though white pine is rather quiet. Export business is good. Hardware is notably active the country over, which leads to the hope that lower prices of materials generally will induce demand to reawaken.

## TILTS BETWEEN COUNSEL.

Receivership Hearing Enlivened by Personalities.

New York, Nov. 7.—Lewis Nixon was again the sole occupant of the stand at the hearing Friday on the application to make permanent the receivership of the United States Shipbuilding company, the session being marked by frequent tilts between counsel, at times verging on personalities. Mr. Schwab was not reached as a witness, Mr. Undermyer spending the afternoon in examining Mr. Nixon about the alleged false statements and misrepresentations to the public during the preliminary to organization.

## HE ENCOUNTERED HOLDUP ARTISTS

W. H. Bolton, the Drayman, While on the Way Home Has a Weird Experience.

## TWO MEN AFTER HIS MONEY BAG

But They Were Scared Away by the Appearance of Mrs. Bolton and Disappeared.

W. H. Bolton, the popular drayman, has a rather weird tale which he is unfolding to his many friends about his experience on Saturday evening with what he supposes to have been two professional holdup artists.

Mr. Bolton had been down town attending the meeting of the teamsters' union and started home at about 11 o'clock. He lives on the west side of the river north of the Sanitarium. When he started to go across the railroad bridge he noticed that there was a man following him up pretty closely, and when on the bridge he saw another man running pell mell across the wagon bridge. When he reached the other side one man advanced toward Mr. Bolton rather hurriedly and began calling for a man by the name of "Frank," supposed to be his pal.

Bolton was prepared for the men and pulled his gun and just as he was about to pump some lead into the fellow Mrs. Bolton hovered in sight, having come out to meet her husband. At the sight of her the holdup artists ran away and disappeared in the darkness. Mr. Bolton had considerable money on his person and he states that a minute more and there would have been one bold, bad man biting the dust. This is the second time that an attempt has been made to hold up Mr. Bolton.

## SEVERAL SHERIFFS IMPLICATED.

Postoffice Robbers Divide the Stolen Funds.

Junction City, Kan., Nov. 6.—F. W. Whittling was Thursday bound over to the United States grand jury on the charge of complicity in the recent postoffice robbery at Morrill, Kan. Whittling is charged by federal officers with being the executive officer of the gang of robbers which has been making things interesting for the banks of the smaller towns in Kansas and Nebraska for several years past. Evidence is alleged to be in the hands of the United States district attorney to the effect that the proceeds of the robberies were turned over to Whittling, who divided the money among the members of the gang. A number of the members are in penitentiaries in Kansas, Colorado and Nebraska and it is charged that they received their regular share of the stolen funds by means of post-office money orders sent to them by Whittling.

Several sheriffs are said to be implicated in helping the gang along, according to disclosures made by the United States authorities.

## HE ENCOUNTERED HOLDUP ARTISTS

W. H. Bolton, the Drayman, While on the Way Home Has a Weird Experience.

## TWO MEN AFTER HIS MONEY BAG

But They Were Scared Away by the Appearance of Mrs. Bolton and Disappeared.

W. H. Bolton, the popular drayman, has a rather weird tale which he is unfolding to his many friends about his experience on Saturday evening with what he supposes to have been two professional holdup artists.

Mr. Bolton had been down town attending the meeting of the teamsters' union and started home at about 11 o'clock. He lives on the west side of the river north of the Sanitarium. When he started to go across the railroad bridge he noticed that there was a man following him up pretty closely, and when on the bridge he saw another man running pell mell across the wagon bridge. When he reached the other side one man advanced toward Mr. Bolton rather hurriedly and began calling for a man by the name of "Frank," supposed to be his pal.

Bolton was prepared for the men and pulled his gun and just as he was about to pump some lead into the fellow Mrs. Bolton hovered in sight, having come out to meet her husband. At the sight of her the holdup artists ran away and disappeared in the darkness. Mr. Bolton had considerable money on his person and he states that a minute more and there would have been one bold, bad man biting the dust. This is the second time that an attempt has been made to hold up Mr. Bolton.

## SEVERAL SHERIFFS IMPLICATED.

Postoffice Robbers Divide the Stolen Funds.

Junction City, Kan., Nov. 6.—F. W. Whittling was Thursday bound over to the United States grand jury on the charge of complicity in the recent postoffice robbery at Morrill, Kan. Whittling is charged by federal officers with being the executive officer of the gang of robbers which has been making things interesting for the banks of the smaller towns in Kansas and Nebraska for several years past. Evidence is alleged to be in the hands of the United States district attorney to the effect that the proceeds of the robberies were turned over to Whittling, who divided the money among the members of the gang. A number of the members are in penitentiaries in Kansas, Colorado and Nebraska and it is charged that they received their regular share of the stolen funds by means of post-office money orders sent to them by Whittling.

Several sheriffs are said to be implicated in helping the gang along, according to disclosures made by the United States authorities.

# A DISASTROUS FREIGHT WRECK NEAR DEERWOOD

An Extra on the Super-  
ior Div. Bumps In-  
to No. 58  
NO ONE WAS HURT  
Engineer and His Fire-  
man Have a Very  
Close Call

There was a head end collision on the Northern Pacific this morning at 10:30 o'clock half way between Deerwood and Cedar Lake, when an extra freight train ran into No. 58, an east bound freight and the loss of property to the company will reach a large sum, but fortunately no one was killed.

The wreck occurred at a place in the track where there is what is known as a reverse curve on a down grade, and the force of the collision was something terrible. No. 58 was in charge of Conductor Griffin and pulled out of Brainerd at 6:30 o'clock, and Engineer A. Brewer was at the throttle. The extra was being pulled by Engineer McLish, and Conductor Morin was in charge of the

train. They were ordered out of Brainerd at 7:30 o'clock and ran very close behind No. 58 when at Deerwood.

It seems No. 58 had a car load of cinders which the crew was ordered to unload at the curve above mentioned. They had finished unloading the cinders and had just coupled up and were pulling out, when the engine of the extra crashed into the rear end, but fortunately none of the crew were in the caboose at the time for if they had been they would have all been killed outright. On account of the down grade just at this point it was impossible for Engineer McLish to stop the train and there being no other alternative he and his fireman jumped.

It was a spectacular sight when the engine struck the caboose of No. 58. Eight or nine cars were thrown off the track and smashed into smithereens, and the engine of the extra and several cars following rolled up over them and all conglomered in a mass of debris.

A wrecker was at once sent out from Brainerd and another arrived on the scene from Duluth and the work of clearing the track commenced shortly before noon. In the meantime No. 11, the passenger from Duluth, was held up and is not expected to arrive in the city before 6 o'clock this evening.

## MUSIC AND DRAMA.

WILLIAM OWEN.

The career of William Owen is a demonstration of what good American pluck can accomplish. Immediately upon graduating from the high school at Albany, N. Y., he engaged with the late Frank Chanfrau to play the smallest part in his "Kit, the Arkansas Traveler." He showed so much ability and earnestness of purpose that before the end of the first season he was promoted to leading business. But nothing but Shakespeare would please this aspiring young Thespian. The following season he became a member of the Daniel Bandman company playing fourteen performances a week with a rehearsal every morning. So well did his talents mature under these strenuous conditions, that before he was nineteen he was intrusted with the star role, Claude Melnotte in "The Lady of Lyons," Julia Arthur, who afterward became one of the most brilliant lights of the stage, on that occasion played the Widow Melnotte. The next season we find him a member of the Rhea company, studying the methods of that excellent French actress. Leaving her he was engaged to play Faust in Lewis Morrison's production and had the opportunity to test himself in the most subtle and difficult part of Mephistopheles. His next engagement was with Julia Marlowe, followed by a season in stock and then an engagement with Creston Clarke, Edwin Booth's nephew, after which his starring tour commenced and has continued uninterrupted and with success for the past seven years.

This talented young romantic actor and his company including J. W. McConnell is booked for an appearance at the Brainerd theatre tonight in a dramatic arrangement of Sir Walter Scott's interesting story Quentin Durward. The play, styled "When Louis XI was King" and is Mr. Owen's first work as a playwright. That he has labored well and successfully is evidenced by the reception that his play has been meeting with. He is under good management this season who have provided him with a more sumptuous production this year than any he has ever been in heretofore.

### Reports Are Exaggerated.

Gen. Kobbe, commanding the Department of Dakota, returned to St. Paul Saturday from a trip taken at the instigation of the war department to investigate the Indian situation at Walker.

Rumors have been rife that there were indications of an Indian uprising, the Chippewas being very restive and obstreperous owing to the operation of the Morris timber act.

The attention of the interior department was called to the situation and referred the matter to the secretary of war. The war department deemed it best to take no chances without being thoroughly prepared and at once notified Gen. Kobbe to make a personal investigation.

The matter was kept very quiet and it was not known that Gen. Kobbe was at Leech Lake until his return.

He will submit his report at once to the secretary of war. It is understood that the general will report that the situation does not seem to demand the presence of any military force at the scenes of trouble. While the Indians have been rather ugly the situation is much improved and there seems to be little danger of an uprising and nothing at all to warrant the sending of troops to protect the whites.

## REMAINS COME TO SURFACE

The Remains of the Little Boy,  
Last of Victims at Narrows,  
Are Found.

### FATHER MAKES GHASTLY FIND

Little Fellow's Remains Interred  
Beside Other Victims at Evergreen Cemetery.

The remains of the little five-year old son of Vet Borders was found in Long Lake on Friday evening and the last chapter of the sad incident of the drowning of Mrs. Borders and her three children on the night of Oct. 1 last, is finished.

The remains of this little boy could not be found after the accident occurred, but the bodies of the mother, daughter and the other little boy were taken from the water a few days afterward, all efforts to find the body of the little five-year old proving futile until Friday night.

The father in going over the narrows at Long lake Friday morning though the saw an object floating in the water some distance away but the wind was so high at that time that it was deemed hazardous to attempt to go out. Friday evening, however, after the wind had subsided, Mr. Borders procured a boat and rowed out in the direction where he saw the object floating. His surmise that the object was the body of his son was true and he pulled the limp, ghastly form from the water into the boat. The body had been in the water over a month and the face had decayed beyond recognition, and it presented a pitiable sight.

The funeral services over the remains of the little fellow were held yesterday afternoon and the interment took place in Evergreen cemetery.

Report comes from the north that an individual claiming to be a lumberjack, but who throws a great quill, had all kinds of fun a few days ago writing out checks signed by Bonnes & Howe. The fellow succeeded in getting rid of a large number of them and got some money. He did not cash the checks himself but gave them to another fellow for a consideration and this fellow made the rounds of the "resorts" with the result that he was arrested. ### FOR THE PUBLIC GOOD

The Information Contained in this Citizen's Statement is Invaluable  
to Brainerd People.

When a resident of Brainerd whose statement appears below has no monetary or other interest on the article which he endorses who is anxious to do his acquaintances and fellow residents a good turn, who publishes in this paper his experience with Doan's Kidney Pills—that citizen must have good and sufficient reason for doing so. The following should dispel any doubts which may have existed in the reader's mind on this subject:

J. Hagadorn, of 123, Ninth street N says: "For thirty years I had more or less trouble with my kidneys. Some attacks laid me up while during others my back ached so severely that I could not work at night nor work during the day. On many occasions I could not stand and talk to a man for two or three minutes without suffering with twinges across the small of my back which radiated towards the shoulders. As time passed by the complaint became more pronounced and difficulty with the kidney secretions set in. As might be expected I tried everything when the attacks occurred to check them but if I had met with any marked degree of success I never would have resorted to Doan's Kidney Pills. When suffering severely I went to a drug store and got a box. I expected the results would be similar to those obtained by using other preparations. In twenty-four hours I changed my mind. I noticed they were acting totally different to anything hitherto tried and encouraged I kept on with the treatment until I finished two boxes. Now I may have re-occurrences but at the present moment and it is some time since I stopped the treatment I have not a symptom of my old complaint. To any one interested I will be only too pleased to give minute details and substantiate the above statement in a personal interview."

Y., he engaged with the late Frank Chanfrau to play the smallest part in his "Kit, the Arkansas Traveler." He showed so much ability and earnestness of purpose that before the end of the first season he was promoted to leading business. But nothing but Shakespeare would please this aspiring young Thespian. The following season he became a member of the Daniel Bandman company playing fourteen performances a week with a rehearsal every morning. So well did his talents mature under these strenuous conditions, that before he was nineteen he was entrusted with the star role, Claude Melnotte in "The Lady of Lyons," Julia Arthur, who afterward became one of the most brilliant lights of the stage, on that occasion played the Widow Melnotte. The next season we find him a member of the Rhea company, studying the methods of that excellent French actress. Leaving her he was engaged to play Faust in Lewis Morrison's production and had the opportunity to test himself in the most subtle and difficult part of Mephistopheles. His next engagement was with Julia Marlowe, followed by a season in stock and then an engagement with Creston Clarke, Edwin Booth's nephew, after which his starring tour commenced and has continued uninterrupted and with success for the past seven years.

This talented young romantic actor and his company including J. W. McConnell is booked for an appearance at the Brainerd theatre tonight in a dramatic arrangement of Sir Walter Scott's interesting story Quentin Durward. The play, styled "When Louis XI was King" and is Mr. Owen's first work as a playwright. That he has labored well and successfully is evidenced by the reception that his play has been meeting with. He is under good management this season who have provided him with a more sumptuous production this year than any he has ever been in heretofore.

### Reports Are Exaggerated.

Gen. Kobbie, commanding the Department of Dakota, returned to St. Paul Saturday from a trip taken at the instigation of the war department to investigate the Indian situation at Walker.

Rumors have been rife that there were indications of an Indian uprising, the Chippewas being very restive and obstreperous owing to the operation of the Morris timber act.

The attention of the interior department was called to the situation and referred the matter to the secretary of war. The war department deemed it best to take no chances without being thoroughly prepared and at once notified Gen. Kobbie to make a personal investigation.

The matter was kept very quiet and it was not known that Gen. Kobbie was at Leech Lake until his return. He will submit his report at once to the secretary of war. It is understood that the general will report that the situation does not seem to demand the presence of any military force at the scenes of trouble. While the Indians have been rather ugly the situation is much improved and there seems to be little danger of an uprising and nothing at all to warrant the sending of troops to protect the whites.

## REMAINS COME TO SURFACE

The Remains of the Little Boy, Last of Victims at Narrows, Are Found.

### FATHER MAKES GHASTLY FIND

Little Fellow's Remains Interred Beside Other Victims at Evergreen Cemetery.

The remains of the little five-year old son of Vet Borders was found in Long Lake on Friday evening and the last chapter of the sad incident of the drowning of Mrs. Borders and her three children on the night of Oct. 1 last, is finished.

The remains of this little boy could not be found after the accident occurred, but the bodies of the mother, daughter and the other little boy were taken from the water a few days afterward, all efforts to find the body of the little five-year old proving futile until Friday night.

The father in going over the narrows at Long lake Friday morning though the saw an object floating in the water some distance away but the wind was so high at that time that it was deemed hazardous to attempt to go out. Friday evening, however, after the wind had subsided, Mr. Borders procured a boat and rowed out in the direction where he saw the object floating. His surmise that the object was the body of his son was true and he pulled the limp, ghastly form from the water into the boat. The body had been in the water over a month and the face had decayed beyond recognition, and it presented a pitiable sight.

The funeral services over the remains of the little fellow were held yesterday afternoon and the interment took place in Evergreen cemetery.

Daisy—There is nothing like deep breathing and Rocky Mountain Tea to make broad shoulders, a fine form and good health. Tea or tablet form. 35 cents.

Lumberjack Up North Got Frisky With the Pen and Worked Up Quite a Business in Old "Bemidj."

Report comes from the north that an individual claiming to be a lumberjack, but who throws a great quill, had all kinds of fun a few days ago writing out checks signed by Bonnes & Howe. The fellow succeeded in getting rid of a large number of them and got some money. He did not cash the checks himself but gave them to another fellow for a consideration and this fellow made the rounds of the "resorts" with the result that he was arrested. As the fellow was drunk and had not secured much money himself, but was rather the loser, he was discharged. Now he is looking for the artist who did the stunt.

### FOR THE PUBLIC GOOD

The Information Contained in this Citizen's Statement is Invaluable to Brainerd People.

When a resident of Brainerd whose statement appears below has no monetary or other interest on the article which he endorses who is anxious to do his acquaintances and fellow residents a good turn, who publishes in this paper his experience with Doan's Kidney Pills—that citizen must have good and sufficient reason for doing so. The following should dispel any doubts which may have existed in the reader's mind on this subject:

J. Hagadorn, of 123, Ninth street N says: "For thirty years I had more or less trouble with my kidneys. Some attacks laid me up while during others my back ached so severely that I could not work at night nor work during the day. On many occasions I could not stand and talk to a man for two or three minutes without suffering with twinges across the small of my back which radiated towards the shoulders. As time passed by the complaint became more pronounced and difficulty with the kidney secretions set in. As might be expected I tried everything when the attacks occurred to check them but if I had met with any marked degree of success I never would have resorted to Doan's Kidney Pills. When suffering severely I went to a drug store and got a box. I expected the results would be similar to those obtained by using other preparations. In twenty-four hours I changed my mind. I noticed they were acting totally different to anything hitherto tried and encouraged I kept on with the treatment until I finished two boxes. Now I may have re-occurrences but at the present moment and it is some time since I stopped the treatment I have not a symptom of my old complaint. To any one interested I will be only too pleased to give minute details and substantiate the above statement in a personal interview."

AFTER HOLDUP MEN  
ROCK ISLAND RAILWAY SENDS  
TWO SPECIAL TRAINS BEAR-  
ING ARMED OFFICERS.  
BLOODHOUNDS ALSO IN USE  
BANDITS HAD DEMANDED THAT  
A SUM OF MONEY BE LEFT  
AT A POINT IN IOWA.

Des Moines, Nov. 9.—The Rock Is-  
land officials have sent out a second  
special train bearing armed officers  
and bloodhounds to Dexter, Ia., in the  
hope of capturing a gang of holdup  
men. The officers spent the night in  
the woods along the right of way be-  
tween Earlham and Dexter, but had  
no encounter with the robbers.

A section man walking the track,  
however, shot at a man whom he saw  
slouching along the right of way, but  
the fellow disappeared in the timber,  
running at full speed, despite the or-  
der to halt. About ten days ago the  
general offices in Chicago received a  
letter directing the road to see that  
\$1,000 was thrown off No. 6, the Den-  
ver flyer, somewhere in Iowa Saturday  
night.

Superintendent Slifer came to Des  
Moines and it was decided to make  
the appearance of acceding to the de-  
mand of the holdup men. But a spe-  
cial was made up at Council Bluffs to  
follow No. 6 about ten minutes, and it  
bore armed men and bloodhounds.  
The engineer of No. 6 was given the  
money to throw from his engine at  
the given signal, the explosion of  
three torpedoes under his side of the  
engine. The torpedoes were not  
exploded. It was rumored, however,  
that No. 5, preceding No. 6 a half  
hour, had.

Exploded the Torpedoes.  
This or some other new information  
resulted in reorganizing the special  
force of armed officers who went out  
on a special from Des Moines to Dex-  
ter and then patrolled the right of  
way between Earlham and that town  
all night.

Nothing developed, however, and  
the men remained in the timber  
watching for the criminals in vain.  
The officials will not discuss the  
matter. Superintendent Smalley said  
that he did not know anything of the  
affair. Other officials admitted the  
truth of the story that specials had  
gone to Dexter and that the right of  
way was being patrolled between that  
town and Earlham.

No. 6, which passed through here  
to the east at 11:30 o'clock, an hour  
and a half late, bore a large number  
of armed men located on the locomo-  
tive and in the coaches prepared for  
an attempted holdup.  
When this train failed to come  
upon the expected torpedoes, the of-  
ficials decided that the letter received  
ten days ago was a hoax. When the  
rumor started that No. 5 had ex-  
ploded the torpedoes the work of re-  
organizing the special force was re-  
sumed. Telegrams brought the owner  
of four bloodhounds from Ford, Ia.,  
and a number of local officers joined  
Chief Custer of the Rock Island sec-  
ret service on the special that left  
here early in the evening.

EXTENSIVE LOTTERY SWINDLE.  
Police Unearth an Alleged Skin Game  
at Lynn, Mass.

Lynn, Mass., Nov. 9.—What is be-  
lieved to be an extensive swindle has  
been brought to light by the police.  
William S. Wells, forty-five years of  
age, is under arrest charged with  
printing lottery tickets and also lar-  
ceny and with obtaining money under  
false pretenses. The police claim that  
counterfeit tickets of several lotteries  
have been sent from here to all parts  
of the country. Wells made a partial  
confession in which he implicated  
a man in Dayton, O., as being the head  
of the plan and a New York man was  
named as being the active manager.  
The plan of operation, according to  
Wells' statement, was to get genuine  
lottery tickets and have photographic  
plates made from them. A record was  
kept of the numbers of the tickets  
and a list of drawing numbers was  
sent with each shipment, none of the  
numbers of the drawing corresponding  
with any number of a ticket in the  
shipment.

BOYS KILL PLAYMATES.  
Anger Results in Murder in Two In-  
stances.

Taunton, Mass., Nov. 9.—Angered  
beyond his powers of control, Walter  
E. Bassett, eleven years old, shot and  
instantly killed Peter Clark, an  
eleven-year-old schoolmate.  
The tragedy was the outcome of a  
quarrel between the two little fel-  
lows. The shooting occurred in the  
yard of the Bassett house. Bassett  
was arrested on the charge of homi-  
cide, admitted his guilt, and was re-  
leased on bail.

Monongahela, Pa., Nov. 9.—Enraged  
over a name applied to him, Earl  
Foley, thirteen years old, shot and  
instantly killed James Murphy, aged  
twelve years, and severely wounded  
John Johnson, aged eleven years.  
The tragedy occurred at Scenery  
Hill, where the three boys reside.  
Foley is in jail. The three boys for  
some time have been companions and  
were out hunting.

SECOND DUEL FATAL.  
Citizen Shoots and Kills a Policeman  
at Hawks, W. Va.

Hawks, W. Va., Nov. 9.—Emery Ar-  
bough shot and instantly killed Po-  
liceman Robert Evans here during the  
day. It is said Evans fired three  
shots at Arbough before the latter  
fired, placing four bullets in Evans'  
abdomen. This was the second duel  
these men have had.

DOWIE'S FINAL MEETING.  
Talks to a Very Small New York Au-  
dience.  
New York, Nov. 9.—John Alexan-  
der Dowie held his final meeting in  
New York in Carnegie hall during  
the evening, addressing a sparse au-  
dience which he characterized as  
"scrawny and miserable." He an-  
nounced that he had established a  
branch of his church in New  
York and that in future regular Sun-  
day meetings would be addressed by  
regular overseers. He also declared  
that he intended to return in two  
years at the head of a host 10,000  
strong.

THREE FATALLY INJURED.  
Scaffold Containing Twenty-five Men  
Collapses.

St. Louis, Nov. 9.—By the collapse  
of a scaffold in the Terminal Railway  
association's subway, in course of  
construction near union station, twenty-  
five laborers were hurled twenty-feet  
to the ground, three of them being  
probably fatally injured. The other  
twenty-two were more or less seri-  
ously hurt. Only one man who was  
on the scaffold at the time escaped in-  
jury.

SETS THEATER ON FIRE.  
St. Paul Boy Resents Refusal to Sell  
Him a Ticket.

St. Paul, Nov. 9.—An unknown  
small boy, who was refused admis-  
sance to the Star theater because of  
his tender age, took his disappoint-  
ment so to heart that he made an at-  
tempt to burn the theater and only  
for the timely discovery of the blaze,  
which had been started in a pile of  
boxes at the rear of the building, the  
theater might have suffered a serious  
loss.

FRANK P. SARGENT STRICKEN.  
Immigration Commissioner Suffers a  
Paralytic Stroke.

Washington, Nov. 9.—Hon. Frank P.  
Sargent, the commissioner of immigra-  
tion, suffered an attack of paralysis of  
the left side during the day and for  
a time his condition gave his family  
considerable concern. He is better,  
however, and because of his splendid  
physique Mr. Sargent's physician  
hopes for a speedy recovery.

Colonel Blackwell Stricken.  
Charlotte, N. C., Nov. 9.—Colonel W.  
T. Blackwell of Durham was stricken  
with paralysis during the day and no  
hope is held out for his recovery.  
Starting out a poor boy he amassed a  
fortune in the manufacture of to-  
bacco. In late years he lost his for-  
tune.

CZAR AND EMPEROR MEET.

Nicholas of Russia Affectionately  
Greeted by the Kaiser.

Berlin, Nov. 9.—The court train,  
bearing the czar, Prince Henry of  
Prussia, the Grand Duke of Hesse,  
Count Lamsdorff and the czar's suite,  
arrived at Wiesbaden from Darmstadt  
at 4:30 o'clock.

Emperor William drove up wearing  
a Russian uniform and moved to the  
front of the Paderborn regiment  
guarding the depot.

At the chateau a signal was given  
as the train bearing the royal guests  
passed the last station. Near the car  
containing the czar a stair was placed  
and the Russian ruler descended to an  
improvised tent, where the emperor  
and his suite were in waiting. The  
czar and emperor kissed each other  
affectionately three times. The czar  
then gave his hand to Count von Bue-  
low and the kaiser did the same to  
Count Lamsdorff. Then the regiment  
defiled, the band playing the Russian  
national anthem.

As the royal guests left the depot  
they were cheered by the crowd. At  
5 o'clock a gala dinner was given at  
the castle.

At 7 o'clock the royalties, amid the  
applause of the populace, left for a  
gala performance at the opera, where  
Weber's "Obeon" was performed. The  
house was packed by an international  
audience.

SPANISH MUNICIPAL ELECTIONS.  
Many Persons Killed and Wounded in  
Rioting.  
Madrid, Nov. 9.—Municipal elec-  
tions were held throughout the coun-  
try during the day. The Republicans  
triumphed in Barcelona, Valencia, Zar-  
agoza, Seville and the most impor-  
tant towns in Catalonia. Disorders  
occurred in Barcelona in which many  
persons were wounded by revolver  
shots. Two persons are reported to

JAPAN AWAITS RUSSIA'S REPLY.  
Far Eastern Difficulty Still Remains  
Unsettled.

Yokohama, Nov. 9.—It is said in of-  
ficial circles at Tokio that the rumor  
that negotiations between the Rus-  
sian and Japanese governments had  
come to the verge of a final settle-  
ment is misleading, but that the Tokio  
government is now awaiting Russia's  
reply, which is due at any moment, but  
which will only advance the question  
of the Far Eastern difficulty to another  
stage.

Chicago City Railway company in an  
effort to bring about a peaceable ad-  
justment of the threatened strike of  
the men. Unless the company agrees to  
some sort of a compromise it is  
thought that a strike will be called  
early this week.

50c. Bottle Free.  
When Medicine Fails, Try Liquezone—We'll Pay for it.  
We Paid \$100,000.

Medicine must fail in a germ trouble,  
because medicine never kills germs. Any  
germ-killing drug is a poison to you, and  
it cannot be taken internally.

Liquezone—liquid oxygen—is the only  
way that any man knows to kill germs in  
the body without killing the tissues, too.  
Its results in a germ trouble are abso-  
lutely certain, for it always destroys the  
cause of the trouble. To prove this—if  
you need it—we will gladly pay for a  
bottle and give it to you to try.

Only Oxygen.

Liquezone is simply liquid oxygen—no  
drugs, no alcohol in it. It is the dis-  
covery of Pauli, the great German chem-  
ist, who spent 20 years on it. His object  
was to get such an excess of oxygen in  
staple form into the blood that no germ  
could live in any membrane or tissue.

Liquezone does that. We spend 14  
days in making every bottle, but the re-  
sult is liquid oxygen—a germicide so cer-  
tain that we publish on every bottle an  
offer of \$1,000 for a germ that it cannot  
kill.

Oxygen is a tonic to you—the most es-  
sential element of life. Its effects are ex-  
hilarating, purifying, vitalizing. Nothing  
else is so good for you. But germs are  
vegetables; and this excess of oxygen  
—the very life of an animal—is deadly to  
vegetable matter.

for the rights to Liquezone for the United  
States. We did this after testing it for  
two years in 3,000 difficult cases, and  
proving that the results were inevitable.  
We state this price to show the value of  
Pauli's discovery. To-day the best physi-  
cians, the world over, use Liquezone alone  
in any germ disease. If you suffer from  
a germ trouble, you must use it, too; else  
rely on Nature alone to get well.

CRANKS ON THE INCREASE.

Eight Within a Month Tried to See  
the President.

Washington, Nov. 9.—Another  
crank, the eighth within a month, has  
sought the president, but this time the  
quest was made at the Capitol instead  
of at the White House, thus varying  
the monotony. The latest addition to  
the crank colony at the government  
hospital for the insane is Charles R.  
Mosely, a negro, fifty years old, who  
came here from Bent Creek, a small  
place in Appamattox county, Vir-  
ginia.

Mosely approached Capitol Guard  
Mahoney and demanded that he in-  
stantly be conducted to the president.  
He stated that his business was to  
deliver a divinely inspired message  
revealed in a dream. He refused to  
reveal the character of the message,  
but he admitted that it had to do  
with the president appointing negroes  
to office and how he could make Vir-  
ginia go Republican.

here, during the night of a complica-  
tion of diseases. He was seventy-one  
years of age. Mr. Elkins' illness,  
which became alarming about three  
weeks ago, really dated from last  
spring, when he narrowly escaped a  
violent death. A heavy iron girder  
which was being hoisted to the top  
of a new office building at Broad and  
Chestnut streets, of which he was part  
owner, fell to the ground, just grazing  
Mr. Elkins, who was passing. The  
shock seriously affected his nervous  
system.

## AFTER HOLDUP MEN

**ROCK ISLAND RAILWAY SENDS  
TWO SPECIAL TRAINS BEAR-  
ING ARMED OFFICERS.**

**BLOODHOUNDS ALSO IN USE**

**BANDITS HAD DEMANDED THAT  
A SUM OF MONEY BE LEFT  
AT A POINT IN IOWA.**

Des Moines, Nov. 9.—The Rock Island officials have sent out a second special train bearing armed officers and bloodhounds to Dexter, Ia., in the hope of capturing a gang of holdup men. The officers spent the night in the woods along the right of way between Earlham and Dexter, but had no encounter with the robbers.

A section man walking the track, however, shot at a man whom he saw slouching along the right of way, but the fellow disappeared in the timber, running at full speed, despite the order to halt. About ten days ago the general offices in Chicago received a letter directing the road to see that \$1,000 was thrown off No. 6, the Denver flyer, somewhere in Iowa Saturday night.

Superintendent Slifer came to Des Moines and it was decided to make the appearance of acceding to the demand of the holdup men. But a special was made up at Council Bluffs to follow No. 6 about ten minutes, and it bore armed men and bloodhounds. The engineer of No. 6 was given the money to throw from his engine at the given signal, the explosion of three torpedoes under his side of the machine. The torpedoes were not exploded. It was rumored, however, that No. 6, preceding No. 6 a half hour, had

Exploded the Torpedoes.  
This or some other new information resulted in reorganizing the special force of armed officers who went out on a special from Des Moines to Dexter and then patrolled the right of way between Earlham and that town all night.

Nothing developed, however, and the men remained in the timber watching for the criminals in vain. The officials will not discuss the matter. Superintendent Smalley said that he did not know anything of the affair. Other officials admitted the truth of the story that specials had gone to Dexter and that the right of way was being patrolled between that town and Earlham.

No. 6, which passed through here to the east at 11:30 o'clock, an hour and a half late, bore a large number of armed men located on the locomotive and in the coaches prepared for an attempted holdup.  
When this train failed to come upon the expected torpedoes, the officials decided that the letter received ten days ago was a hoax. When the rumor started that No. 6 had exploded the torpedoes the work of reorganizing the special force was resumed. Telegrams brought the owner of four bloodhounds from Ford, Ia., and a number of local officers joined Chief Custey of the Rock Island secret service on the special that left here early in the evening.

**EXTENSIVE LOTTERY SWINDLE.**

Police Unearth an Alleged Skin Game at Lynn, Mass.

Lynn, Mass., Nov. 9.—What is believed to be an extensive swindle has been brought to light by the police. William S. Wells, forty-five years of age, is under arrest charged with printing lottery tickets and also larceny and with obtaining money under false pretenses. The police claim that counterfeit tickets of several lotteries have been sent from here to all parts of the country. Wells made a partial confession in which he implicated a man in Dayton, O., as being the head of the plan and a New York man was named as being the active manager.

The plan of operation, according to Wells' statement, was to get genuine lottery tickets and have photographic plates made from them. A record was kept of the numbers of the tickets and a list of drawing numbers was sent with each shipment, none of the numbers of the drawing corresponding with any number of a ticket in the shipment.

**BOYS KILL PLAYMATES.**

Anger Results in Murder in Two Instances.

Taunton, Mass., Nov. 9.—Angered beyond his powers of control, Walter E. Bassett, eleven years old, shot and instantly killed Peter Clark, an eleven-year-old schoolmate.

The tragedy was the outcome of a quarrel between the two little fellows. The shooting occurred in the yard of the Bassett house. Bassett was arrested on the charge of homicide, admitted his guilt, and was released on bail.

Monongahela, Pa., Nov. 9.—Enraged over a name applied to him, Earl Foley, thirteen years old, shot and instantly killed James Murphy, aged twelve years, and severely wounded John Johnson, aged eleven years. The tragedy occurred at Scenery Hill, where the three boys reside. Foley is in jail. The three boys for some time have been companions and were out hunting.

**SECOND DUEL FATAL.**

Citizen Shoots and Kills a Policeman at Hawks, W. Va.

Hawks, W. Va., Nov. 9.—Emery Arbaugh shot and instantly killed Policeman Robert Evans here during the day. It is said Evans fired three shots at Arbaugh before the latter fled, placing four bullets in Evans' abdomen. This was the second duel these men have had.

## DOWIE'S FINAL MEETING.

Talks to a Very Small New York Audience.

New York, Nov. 9.—John Alexander Dowie held his final meeting in New York in Carnegie hall during the evening, addressing a sparse audience which he characterized as "scrawny and miserable." He announced that he had established a branch of his church in New York and that in future regular Sunday meetings would be addressed by regular overseers. He also declared that he intended to return in two years at the head of a host 10,000 strong.

**THREE FATALLY INJURED.**

Scaffold Containing Twenty-five Men Collapses.

St. Louis, Nov. 9.—By the collapse of a scaffold in the Terminal Railway association's subway, in course of construction near union station, twenty-five laborers were hurled twenty-feet to the ground, three of them being probably fatally injured. The other twenty-two were more or less seriously hurt. Only one man who was on the scaffold at the time escaped injury.

St. Paul Boy Resents Refusal to Sell Him a Ticket.

St. Paul, Nov. 9.—An unknown small boy, who was refused admittance to the Star theater because of his tender age, took his disappointment so to heart that he made an attempt to burn the theater and only for the timely discovery of the blaze, which had been started in a pile of boxes at the rear of the building, the theater might have suffered a serious loss.

**FRANK P. SARGENT STRICKEN.**

Immigration Commissioner Suffers a Paralytic Stroke.

Washington, Nov. 9.—Hon. Frank P. Sargent, the commissioner of immigration, suffered an attack of paralysis of the left side during the day and for a time his condition gave his family considerable concern. He is better, however, and, because of his splendid physique Mr. Sargent's physician hopes for a speedy recovery.

**Colonel Blackwell Stricken.**

Charlotte, N. C., Nov. 9.—Colonel W. T. Blackwell of Durham was stricken with paralysis during the day and no hope is held out for his recovery. Starting out a poor boy he amassed a fortune in the manufacture of tobacco. In late years he lost his fortune.

**CZAR AND EMPEROR MEET.**

Nicholas of Russia Affectionately Greeted by the Kaiser.

Berlin, Nov. 9.—The court train, bearing the czar, Prince Henry of Prussia, the Grand Duke of Hesse, Count Lamsdorf and the czar's suite, arrived at Wiesbaden from Darmstadt at 4:30 o'clock.

Emperor William drove up wearing a Russian uniform and moved to the front of the Paderborn regiment guarding the depot.

At the chateau a signal was given as the train bearing the royal guests passed the last station. Near the car containing the czar a stair was placed and the Russian ruler descended to an improvised tent, where the emperor and his suite were in waiting. The czar and emperor kissed each other affectionately three times. The czar then gave his hand to Count von Buelow and the Kaiser did the same to Count Lamsdorf. Then the regiment defied the band playing the Russian national anthem.

As the royal guests left the depot they were cheered by the crowd. At 5 o'clock a gala dinner was given at the castle.  
At 7 o'clock the royalties, amid the applause of the populace, left for a gala performance at the opera, where Weber's "Oberon" was performed. The house was packed by an international audience.

Madrid, Nov. 9.—Municipal elections were held throughout the country during the day. The Republicans triumphed in Barcelona, Valencia, Zaragoza, Seville and the most important towns in Catalonia. Disorders occurred in Barcelona in which many persons were wounded by revolver shots. Two persons are reported to have been killed in a small town in Valencia.

**JAPAN AWAITS RUSSIA'S REPLY.**

Far Eastern Difficulty Still Remains Unsettled.

Yokohama, Nov. 9.—It is said in official circles at Tokio that the rumor that negotiations between the Russian and Japanese governments had come to the verge of a final settlement is misleading, but that the Tokio government is now awaiting Russia's reply, which is due at any moment, but which will only advance the question of the Far Eastern difficulty to another stage.

**Efforts to Avert a Strike.**

Chicago, Nov. 9.—Arrangements have been made for a conference between the officials of the Amalgamated Street Railway Employees' association and General Manager McCulloch of the Chicago City Railway company in an effort to bring about a peaceable adjustment of the threatened strike of the men. Unless the company agrees to some sort of a compromise it is thought that a strike will be called early this week.

**When Medicine Fails, Try Liquozone—We'll Pay for it.**

**We Paid \$100,000.**

for the rights to Liquozone for the United States. We did this after testing it for two years in 3,000 difficult cases, and proving that the results were inevitable. We state this price to show the value of Pauli's discovery. To-day the best physicians, the world over, use Liquozone alone in any germ disease. If you suffer from a germ trouble, you must use it, too; else rely on Nature alone to get well.

**Only Oxygen.**

Liquozone is simply liquid oxygen—no

drugs, no alcohol in it. It is the discovery of Pauli, the great German chemist, who spent 20 years on it. His object was to get such an excess of oxygen in staple form into the blood that no germ could live in any membrane or tissue.

Liquozone does that. We spend 14 days in making every bottle, but the result is liquid oxygen—a germicide so certain that we publish on every bottle an offer of \$1,000 for a germ that it cannot kill.

Oxygen is a tonic to you—the most essential element of life. Its effects are exhilarating, purifying, vitalizing. Nothing else is so good for you. But germs are vegetables; and this excess of oxygen—the very life of an animal—is deadly to vegetable matter.

**CRANKS ON THE INCREASE.**

Eight Within a Month Tried to See the President.

Washington, Nov. 9.—Another crank, the eighth within a month, has sought the president, but this time the quest was made at the Capitol instead of at the White House, thus varying the monotony. The latest addition to the crank colony at the government hospital for the insane is Charles R. Mosely, a negro, fifty years old, who came here from Bent Creek, a small place in Appamattox county, Virginia.

Mosely approached Capitol Guard Mahoney and demanded that he instantly be conducted to the president. He stated that his business was to deliver a divinely inspired message revealed in a dream. He refused to reveal the character of the message, but he admitted that it had to do with the president appointing negroes to office and how he could make Virginia go Republican.

**WILLIAM L. ELKINS DEAD.**

Multi-Millionaire Traction Magnate and Financier.

Philadelphia, Nov. 9.—William L. Elkins, the multi-millionaire traction magnate and financier, died at his summer home at Ashbourne, near here, during the night of a complication of diseases. He was seventy-one years of age. Mr. Elkins' illness, which became alarming about three weeks ago, really dated from last spring, when he narrowly escaped a violent death. A heavy iron girder which was being hoisted to the top of a new office building at Broad and Chestnut streets, of which he was part owner, fell to the ground, just grazing Mr. Elkins, who was passing. The shock seriously affected his nervous system.
